

HKLA Webinar: Giant freighter “Ever Given” grounding at Suez Canal on 25 June 2021

Ever Given grounding at Suez Canal is a typical maritime incident that happened in 2021. Not only the huge amount of compensation claimed, but also alarmed us the dramatic impacts to the Global Supply Chain had caused. Many parties including Authorities, Shipowners, Ship Operators/Charters, and thousands of Cargo Interests are involved. Mr. Timothy Lee of MSIG Insurance (Hong Kong) Ltd. has shared the background, consequences, and lessons to learn with HKLA's members. For Cargo Interests (both shippers & forwarders), Mr. Samson Ng of Marsh (Hong Kong) Ltd. shared the Risks Management perspective, as well as General Average Exposure and related handling procedure. Accidents happen and what important is, we should have necessary knowledge and measures to deal with it in an effective way.

Ms. Cindy Pang
MSIG Insurance (Hong Kong) Limited

HKLA Webinar: Helping the Freight Forwarding Community: The Container Supply Crisis and the Changing World of Digital Logistics on 29 June 2021

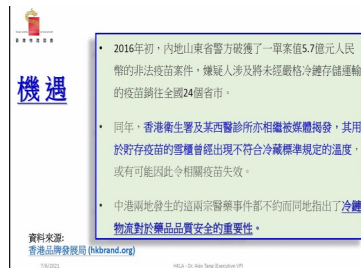

It was my privilege to moderate the HKLA Webinar on 29 June 2021, discussing the Container Supply Crisis and the Changing World of Digital Logistics - presented in collaboration with DP World (new HKLA Corporate Member) and the Digital Freight Alliance (DFA). Speakers were Mr. Andrew Hoad, Chief Network Officer at DP World and President of Digital Freight Alliance; Mr. Julian Madsen, Head of Business Development at DP World in Dubai and Mr. Tero Ahonen, Managing Director Greater China at Greencarrier.

Our lively dialogue explored the container shortage crisis and its impact on freight forwarding and global supply chains. DP World outlined their plans to establish a pool of containers to be made available via digital platforms to DFA Freight Forwarder members, for select trade routes. We also discussed Future Directions for Freight, with critical priorities being Sustainability and Digitalization, with key take-aways summarised as “Disruption is the Present, Digital is the Future!”.

Mr. Mark Millar
FHKLA, former Chair of HKLA International Relations Committee
