

# 2022 Hong Kong Logistics Case Competition and Workshop

The 7th competition is the first time of 3 days and 2 nights with a hot theme of 'Cold Chain' logistics. The teaching components included cold chain awareness and warehouse management system on Friday. The site visit to Yamato in the Saturday morning was successful and fruitful. Participants comes from HKUST, PolyU, HSU and TY IVY. They all are mixed in 8 teams with different institutes and they have picked up problem solving skill throughout their 2 rounds of presentation. We look forward to the next camp in 2023

*Ir. Dr. Owen Yue  
HKLA Secretary General and Convener of YDC and YSHKLA*

This is undoubtedly one of the most memorable and fruitful case competitions we have participated. The 2022 Hong Kong Logistics Case Competition and Workshop allow participants to integrate and adapt what we have already learned in the university to real-world problems. For us, this competition was eye-opening as it gave us a taste of what it would probably look like in the workplace after our graduation. The biggest lesson we have learned is not to be limited by what we have learned. Instead, we shall think and consider practically, then manage and apply what we have learned in the real world.

Overall, the competition was a rewarding and precious experience for students. Great thanks to Hong Kong Logistics Association for organizing such a heuristic event, and also to those who have been super supportive during the competition.

*Ms. Ho Sze Nok Niki and Mr. Lee Ho Sam  
Champion team of 2022 Hong Kong Logistics Case Competition & Workshop*

Sincerely thanks to Hong Kong Logistics Association for organizing 2022 case competition in this hard period and specially arrange company visit to Yamato Logistics Hong Kong. We get the chance to look into their daily operations and facilities, then we are required to discover the existing weakness in the company.

It is difficult for our team during the preparation stage but after communicating with the supervisors, we discovered our mistakes and at the end we reformed the whole idea before presentation. We are pleased to receive the award of Best Innovative Solution. "Don't be afraid of change" by President Elsa is still deeply influence us.

The overall experience is fruitful and valuable. Thanks to all HKLA's supervisors and Yamato HK once again. We are looking forward to meet with the team!

*Ms. Goh Yong Qi and Ms. Ho Sum Shuen  
Best Innovative Solution of 2022 Hong Kong Logistics Case Competition & Workshop*

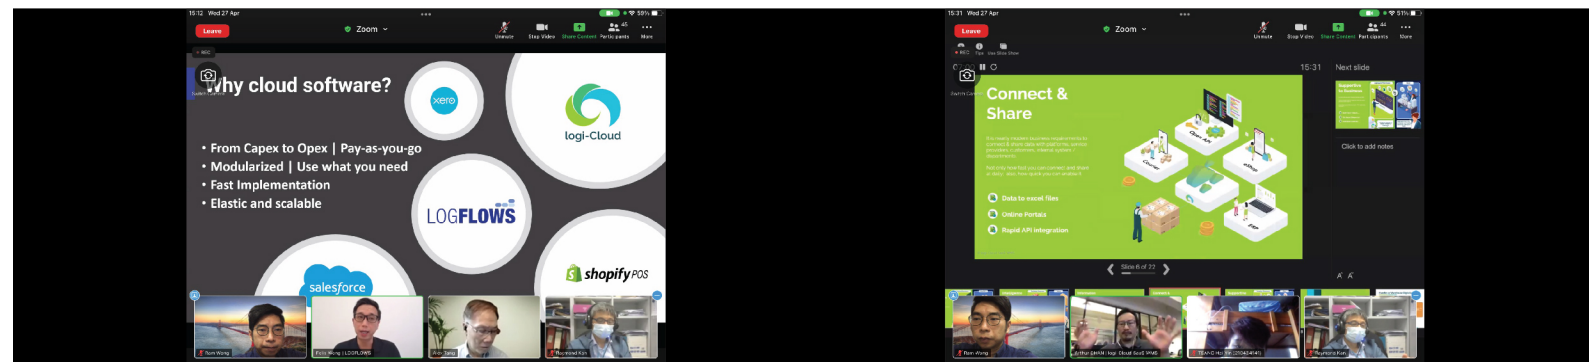

(Hong Kong) Limited in the second day was arranged to broaden students' horizon in real-life cold storage and transportation operations. Through this competition, students had the chance to interact with Yamato's management staff and front-line operators to further develop their intellectual capabilities. Lastly, a special guest, Mr. Justin Yeung, was invited to give a talk related to the outlook of ESG in our society.

*Dr. Paul Tsang  
HKLA Associates  
Mentor of 2022 Hong Kong Logistics Case Competition & Workshop*
