

Action Plan on Modern Logistics Development

The HKSAR Government promulgated the Action Plan on 31 Oct aiming to consolidate and promote Hong Kong's position as an international logistics hub. It formulates 8 strategies and 24 action measures to meet the short, medium and long-term development needs of the logistics sector, with a view to promoting the sustainable and high-quality development of Hong Kong's logistics industry.

8 Strategies

- To Promote Digitalisation and Smart Logistics Development in the Industry
- To Build and Promote the High-end and Innovative Industry Image
- To Promote Interconnectivity of Logistics Data for Enhancing Industry Competitiveness
- To Promote Green Logistics for Driving Industry Development
- To Stabilise Supply of Logistics Land and Develop Logistics Clusters with Different Functions
- To Strengthen Collaboration with the Greater Bay Area and Grasp New Development Opportunities
- To Promote Hong Kong's Unique Advantages and Actively Explore New Business Opportunities
- To Enhance Cross-sectoral Coordination for Supporting the Long-term Development of the Logistics Industry

- Strategically located at the heart of Asia, and the gateway to the Mainland and the Asia-Pacific region
- Multimodal connectivity by sea, land and air
- Advanced technology and expertise in handling time and temperature sensitive products
- Free flow of information and capital
- Institutional advantages (such as free port, simple and low tax system, sound legal system and good intellectual property protection)
- World's number one cargo airport
- Flexible logistics service
- Efficient cargo clearance

Strengths

Opportunities

- Policy support from the Central Government
- Opportunities under national development strategies (14th Five-Year Plan, Development of the GBA, and Belt and Road Initiative)
- Vast logistics resources in the GBA
- RCEP promoting trade among Asia-Pacific countries
- Booming cross-border e-commerce reshaping traditional logistics operations
- Growing demand for high-value goods
- Growth of domestic demand in Asia and the GBA
- Integrated development of the GBA
 - Strong economic vitality, high-consuming power population, driving demand for high-value goods
 - Cooperation with Zhuhai Airport
- Sustainable logistics practices becoming a competitive advantage in the market
- Promoting the use of sustainable aviation fuel

- Insufficient supply of affordable logistics land, leading to high rental costs and short-term tenancies
- Lack of manpower resources, including highly skilled professionals and low-skilled practitioners (e.g., warehouse workers, cross-border goods vehicle drivers, etc.), resulting in high labour costs
- Limited technology adoption
- High operating costs
- Weak cross-sectoral collaboration mechanism

Weaknesses

Threats

- Geopolitics (e.g. Sino-US trade restrictions)
- Intense competition from neighbouring cities
- Lack of awareness of sustainable logistics practices among SMEs
