

ESG Supply Chain Management Program (ESG SCM)

The HKLA is pleased to announce the successful completion of the ESG SCM Launch Ceremony and Best Practice Sharing on 25 April. As part of our commitment, we have formed a dedicated task force that acts as the 'ESG Rating Agent,' assessing the ESG performance of direct and indirect logistics operations. We take pride in being the first rating agent in Hong Kong to support logistics companies in aligning with global ESG requirements.

HKLA has responded promptly to ensure our members remain resilient in the evolving logistics business landscape, meeting the market demand for ESG-focused logistics operators. Obtaining a favourable rating for logistics operations to demonstrate an enterprise's ESG capabilities is crucial.

To achieve this, logistics companies can take two key steps. Firstly, as a decision maker, you can participate in the HKLA rating system (ESG SCM) to showcase your company's ESG performance. Secondly, participating companies can train the staff by joining HKLA's professional accreditation, enabling them to become proficient ESG logistics operators.

The ESG SCM Program serves two important functions: (1) assessing the ESG capacity of participating companies and (2) functioning as an educational tool to raise environmental, social, and governance awareness among the staff of participating companies.

Let's work together to ensure the sustainability of our businesses and join the ESG SCM community as soon as possible.
