

考察肇慶唯品會 (2018年10月19日)

一直對內地電子商務平台的物流處理能力很感興趣，得悉香港物流協會在10月中組團參觀中國第四大電商唯品會位於肇慶的區域物流中心，隨即報名參加。

這個物流中心負責處理華南四個省份的訂單。雖然該中心每日需要處理數以十萬計的訂單，但是操作人手只需數千人，這要歸功於唯品會使用了自動化的物流科技。參觀期間，見識了Goods-to-man機器人和蜂巢系統的操作流程，這些物流新技術減省了揀貨時的操作人手，大大減低勞動成本，亦使流程更為順暢。

是次參觀獲益良多，期待協會再舉辦類似的活動。

YSHKLA Visit to Geodis Warehouse on 30 Oct 2018

It was an honour to have been invited to an exclusive warehouse visit with Ronald, the Director of GEODIS, in Tuen Mun, which I enjoyed. We visited different sections, such as high fashion, macaron and the process of picking and packing online orders. Ronald first introduced his company by a YouTube video which showed us the vision of GEODIS and the application of automation technology in his warehouse, showing a foreseeable prospect of the logistics industry. We observed and learned about how the clear division of labour, effective management skills and stringent hygiene standards have benefited the company.
