## Third Party Logistics Costing & Pricing Workshops (Aug-Oct 2017)

Cost analysis and calculation are the routine of an accountant but is also the job of a logistics service provider who has to control the cost and to price their services. The Workshop is designed to alert logistics managers or 3PL service providers about what are the important cost elements in calculating the actual costs of a logistics operation. The overwhelming enrolment forced us to conduct two rounds of workshop across August, September, and October of this year.

The basic concept was briefed in Part I. In Part II, a Case Study was used to apply the concept that had learned from Part I. Few small groups were formed in the Part II Workshop in order to facilitate the exchange of experiences, ideas and methodology. Some constructive solutions were recommended. The final knowledge and experience sharing section was inspiring. Positive feedback was received from all the participants.

## 一輝物流園實地考察(2017年11月22日)

香港政府在2017年11月19日至11月26日，舉辦了第二屆「香港海運週」，旨在推廣香港作為經營海運業務的首選地，並加深公眾對業界經濟貢獻的認識。

為配合香港海運週2017，香港物流協會特於2017年11月22日安排了「一輝物流園實地考察」，令會員及各參與人士更深入地了解香港物流業中不同作業的運作及安排。

是次實地考察一輝物流園位置在香港的西北部-流浮山。佔地超過550,000平方呎，屬於一層式的貨倉。當中包括了不同功能的倉庫，如作CFS（貨櫃貨運集散站）、第三方物流、電商物流、溫度控制的倉庫等功能。

活動中，一輝物流的管理人員詳細講解了日常運作的細節，分析如何善用這550,000平方呎的物流園，以及怎樣有效地運用同層操作，以增加效率。

及後各會員及各參與人士能夠親身到倉庫中實地考察，看到溫度控制的倉庫中的佈局與其他的倉庫分別，電商物流的存貨及包裝安排。會員及各參與人士亦十分主動及投入地發問與物流園相關問題。

希望會員及各參與人士透過實地考察活動，增強對香港物流業中不同作業的運作及安排的了解及認識。

**黃樂恆工程師 - 香港物流協會 項目委員會主席**

## The Youth Society of HKLA visited Hactl on 24 Nov 2017

Have you ever thought about how horses can take a flight in Hong Kong? The answer can be found through the visit to Hactl (Hong Kong Air Cargo Terminals Limited)! This time, YSHKLA organised a 'Visit to Hactl' for all sub-degree and tertiary students who are studying a logistics related program. Through this informative event, I got an in-depth look at the warehouse operation.

Judy, an employee from the Learning and Development Department of Hactl, introduced different cargo handling operations. Hactl is a six-floor terminal which is equipped with an automated system for facilitating the storage of container. Each floor is responsible for different operations, say, the ground floor is mainly for express and perishable cargo due to a shorter time to handle the goods, whereas on the third and fourth floor they handle 'break and bulk cargo'.

What impressed me a lot is that Hactl also specialises in handling live animals, like horses. Their dedicated centre has assigned a place for horses and they can wait for loading from the horse stalls to the Bulk and Main cargo door of the aircraft. Undoubtedly, I gained a deep understanding about how the air cargo warehouse runs and grateful to all who helped to arrange this visit.
