

## Youth Society of Hong Kong Logistics Association 2018-19

Though I have served as an Event Organiser for one year, the memory of the interview for the Youth Society (YS) committee selection in the last annual general meeting remains extremely clear. This year, I am grateful to be selected as Chairlady of YS and thank for everyone who have confidence in me. It is my great honor to express my gratitude here. Leading a team has never been an easy task, and I know YS still has the room to improve. And now, we have 5 new faces to join this team, including Toby, Mappy, Steven, Roy and Gerry. I am looking forward to cooperating with my new team members to let YS grows much stronger!

## HKLA Delegation to Xiamen (11-12 April 2018)

On 11-12 April 2018, the Hong Kong Logistics Association (HKLA) arranged a delegation to Xiamen. The visit allowed all participants have a good understanding of the development of Xiamen's logistics industry and connect with local logistics association and industrial.

Thank you for their hospitality, Linde (China) Forklift Corporate Limited arranged an excellent tour for the participants. Linde showed their latest invention on forklift truck - a fully automated version which can handle materials and inventory in an efficient and intelligent manner. Apart from the traditional manual material handling equipment, this is a breakthrough in logistics technology and will contribute in the Made in China 2025 from the logistics aspect.

The HKLA delegation group had also met the Xiamen Logistics Association. The participants had a good sharing on the latest industrial development of both cities. Also, HKLA and Xiamen Logistics Association had signed MOU and explored future collaboration opportunities.

In addition, the delegation visited Hengan International Group Co. Ltd, a leading fast moving consumer goods company in China. Hengan introduced the fully automated warehouse, and production can operate 24 hours a day. The adoption of fully automated machines and robotics in the logistics sector are no longer a dream but become true.

In short, the HKLA's Xiamen visit is an eye-opening tour, broadening the horizons of the participants on understanding the latest development of the logistics technology and encouraging closer interaction and allowing potential cooperation between Hong Kong and Xiamen logistics practitioners.

## Workshop : Food Safety along the Cold Chain Storage on 20 April 2018

In view that there is a growing demand for cold chain logistics, Mr. Sidney Lai, Sales Director of China Cold Chain Co., Ltd. was invited to share his valuable knowledge and experience on food safety and cold chain storage with members on 20 April 2018. Mr. Lai pointed out that temperature control is an

important issue in the cold chain process. He also provided practical guide on handling temperature sensitive products which includes packaging, transportation and warehouse.

*We are grateful for the sharing of Mr. Sidney Lai !*

## Workshop: Overview of Technological Applications for 21st Century Logistics Operations on 11 May 2018

The e-commerce related logistics technology is developing fast. The old school type of technology can no longer be the solution to cope with the vibrant market demand. The objective of this HKLA Seminar was to alert the participants that under high labor and land cost and the rapid changing technology,

the application of AI, AR, IoT, big data, robots, and unmanned vehicles in logistics operations will be the trend. Logistics operations will no longer be simply a physical movement of goods along the supply chain. It will be a mix of innovative technology and information management. The message was clear that acquiring a completely new skill-set is key for enterprises to survive and to sustain their businesses.
