DIGITAL DELIVERY

Hear how blockchain, AI, immersive technologies, 3D printing and IOT are changing the logistics landscape forever.

LAST MILE

The on-demand customer expects delivery immediately, or as close to immediate as possible. Innovation in payments, route and fleet optimisation and insights from data are making on-demand delivery a reality.

SUPPLY CHAIN

Learn how you can build a seamless end-to-end supply chain.

WAREHOUSING

Inventory management and fulfilment services are following suit with technology, automation and data leading the charge.

SUSTAINABLE DELIVERY

Join the debate on how to create a sustainable supply chain from electric vehicles to packaging to fuel reduction to alternative energy sources.

X BORDER

Come and learn from local logistics experts as they discuss the challenges in each country.
